Client Profile

Our client is a well-known ERP Solution Provider whose primary focus in on offering Enterprise Automation Solutions and IT Services to its both International and Domestic clients. In addition to that, client is having its presence surrounded in 25 countries.

Provider whose primary focus in on offering Enterprise Automation Solutions and IT Services

Business Scenario

Our client being prolific in an ERP domain wanted a sturdy test automation tool that helps them perform regression automation for their ERP solutions to ensure optimum performance and quality for their clients. And, that required resources to be somewhat skilled in technical coding to use automation tools. As a result, our client wanted to focus on the codeless approach of TestingWhiz which fulfilled their requirements to a greater extent.

Solution

The client relied on TestingWhiz for Regression Test Automation, Job Scheduler and Easy Integration with Bug Tracking Tools.

Automated end-to-end Regression Testing of the ERP Software

Recorders for storing all the object controls reducing the need of manual scripting
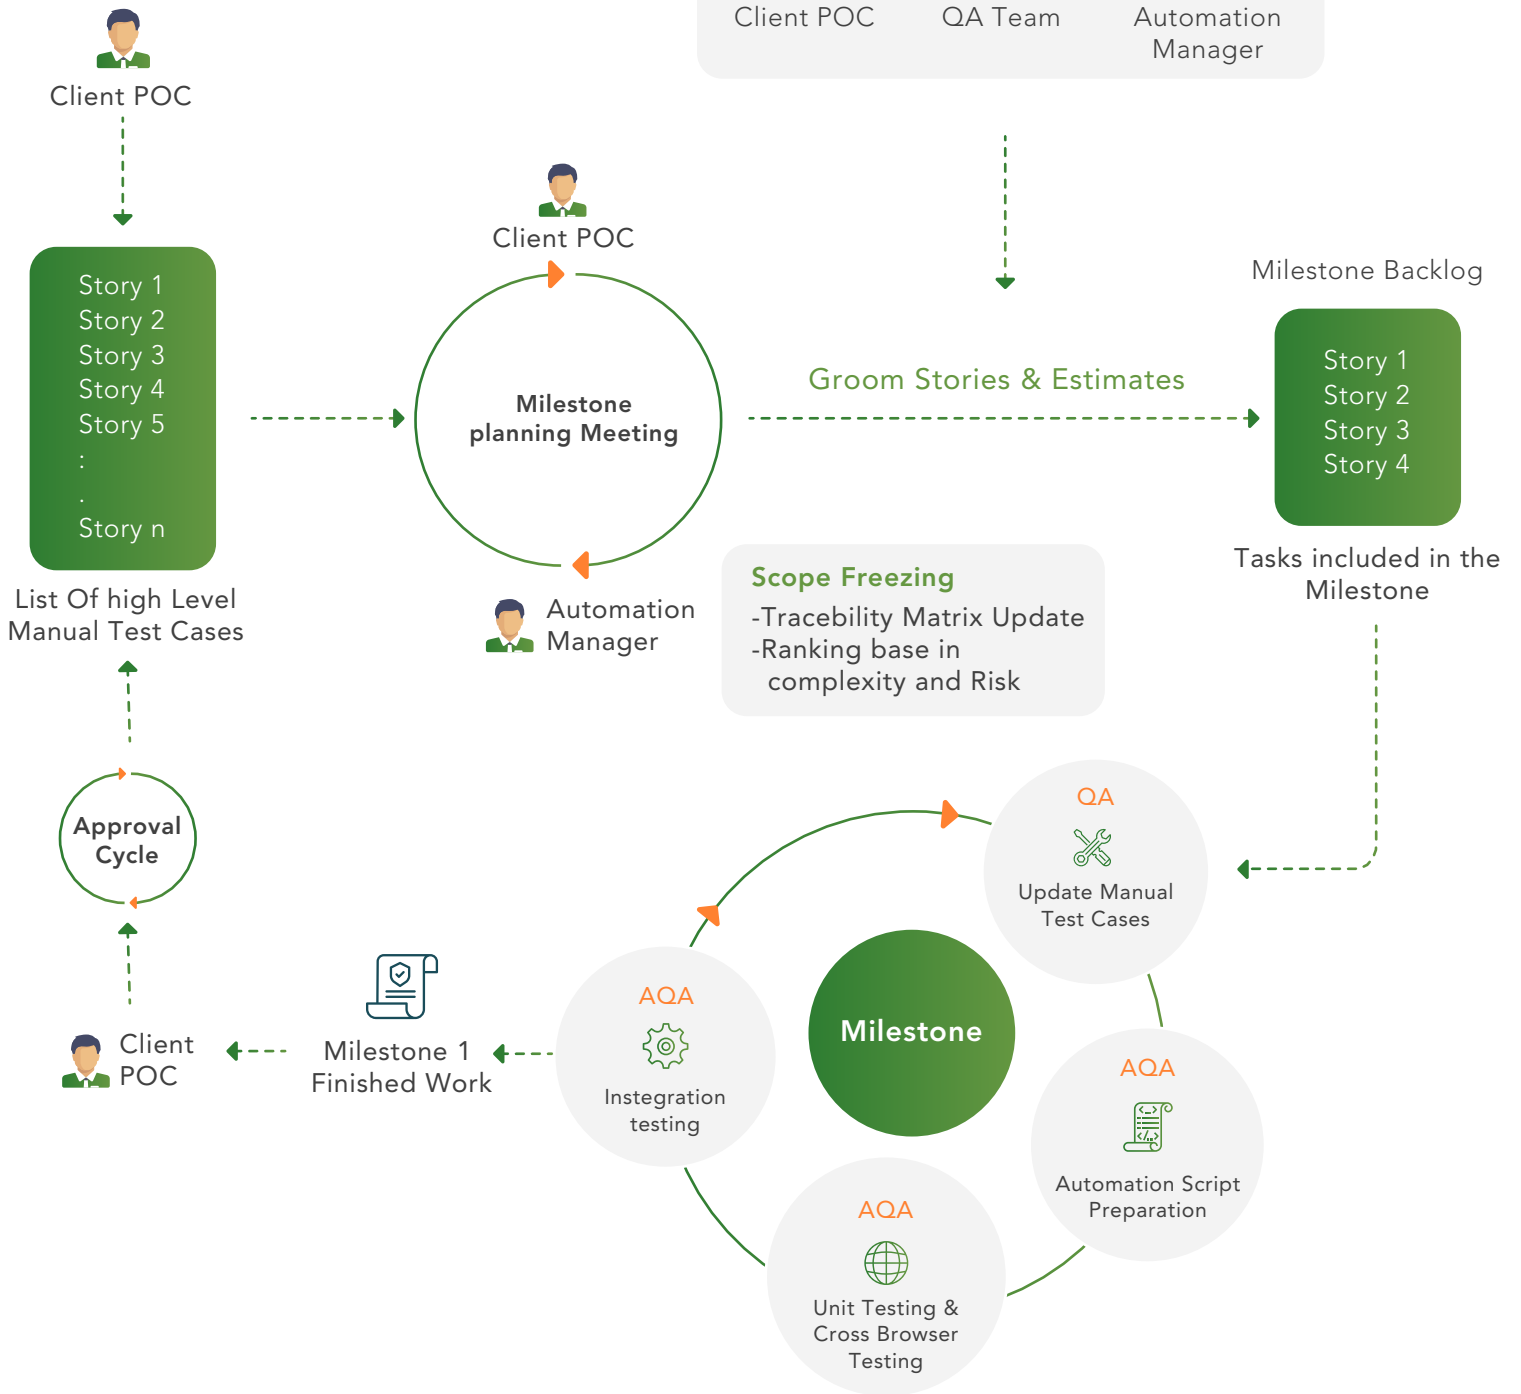

Job Scheduler for scheduling and running test cases at a pre-defined date, day, week and time, and set exceptions

Automated Bug Tracking to effortlessly report bugs and track the status
