Client Profile

Our client is one of the top notch ecommerce business website for manufacturers, distributors and wholesalers. Our client offers smart solutions for B2B Ecommerce clients and prospects around the world.

Business Scenario

Our client being in an ecommerce industry wanted to execute a robust test automation tool for their website and customers, that includes Functional Testing of Web GUI, Regression Testing Automation, Data-driven Testing using different set of values. Our client already spent crucial time on manually testing the entire business flow of various ecommerce platforms accurately. They even ensured that they delivered the expected outcome at the user's end.

Solution

The client trusted TestingWhiz for Business Process Automation, Data-driven Testing and Regression Testing Automation due to its effective test automation solutions and codeless test automation capabilities.

Automated end-to-end Regression Testing of the system for Business Flow Validation

Data-driven Testing for testing the ecommerce platforms against multiple data set and data values

Image Comparison feature for comparing two images and record the difference at the pixel level based on user's requirement

Automated Functional Testing to test entire business flow to measure efficiency and user experience of the application.

Our Approach

Success

- ◆ TestingWhiz automated 300+ test cases, thereby reducing the regression testing cycle by 70%
- ◆ Increased testing efficiency via Internal and External Recorder feature to create modular scenarios for complex test cases

About TestingWhiz

TestingWhiz is a Codeless Test Automation Solution created for Agile Teams. It is built with a commitment in mind that any tester without having programming skills can automate complex test cases and save total cost of Automation.

TestingWhiz uses Cygnet's proprietary technology combined with Selenium to bring codeless approach to App Testing which is a unique proposition. It offers 360-degrees automation with a full circle support on Web, Mobile, Web Services, Database, Cloud and Big Data Testing.
